

The PACCAR Medical Education Center

The PACCAR Medical Education Center is a 39,500 square foot free-standing state of the art facility featuring a steel structure on concrete foundations with stone veneer, metal panel, and cased window skinwall. This project included the following: several large classrooms, a multi-purpose auditorium, a virtual hospital and administration space. Danis Building Construction Company will be the construction manager for the project.

If you would like additional information regarding the bidding process and schedule please contact Jim Albertson with Danis Building Construction Company at (614) 761-8385 or by e-mail (jalbertson@danis.com).
