A Special Benefit for Members with Cancer

No one can tell what tomorrow will bring.

If a cancer diagnosis does occur, then it may be reassuring to know that you won’t be alone in navigating the complex world of cancer care. NGS CoreSource, your health benefits administrator, provides access to a cancer management and support program from Biologics, Inc.

Personal Resources, Patient Advocacy

Biologics empowers everyone involved in your treatment to work in sync by putting your best interests at the center of it all. The program simplifies cancer care while reducing your stress and anxiety. From the point of diagnosis through treatment and release from medical care, the program will offer you comforting support and guidance.

Biologics’ multidisciplinary team, led by an Oncology Certified Nurse, will be assigned to you and will:

:: Make arrangements for pre-authorizations to accelerate your treatment
:: Confirm that treatments line up with your coverage benefits
:: Consult with you on your cancer medications
:: Help you find co-pay assistance
:: Coordinate all aspects of your care.

Additional Support Services Include:

:: Reliable patient resources specific to each diagnosis (Because information and clarity can lead to better outcomes, we’ll arm you with the right information to empower you to fight the disease better)
:: Assistance in reading and understanding test results
:: Guidance on preparing for upcoming appointments and procedures
:: Coordination of care with multiple doctors to minimize duplicate tests and services
:: 360-degree closed-loop communication with your treating provider.

Cancer may be the biggest challenge you ever face, so we strive to free you to focus on the fight. For more information, please call 800.983.1590 or e-mail info@biologicstoday.com.
